

Florida's First Charter Member of Cleaning for a Reason:

The Cleaning Pros, Inc. Helps Women Undergoing Cancer Treatment

New Port Richey, FL, Jan. 22, 2007 Cleaning for a Reason Foundation is excited to announce their first Florida charter member, The Cleaning Pros, Inc. Cleaning for a Reason is the nation's first non-profit organization dedicated to providing free or subsidized house cleaning services for women undergoing cancer treatment.

Chuck Terpstra, founder of The Cleaning Pros, Inc., says, "People struggling with cancer have better things to worry about than cleaning their homes, and I thought this was a perfect opportunity to give back to the community."

Debbie Sardone, Founder of Cleaning for a Reason Foundation, said, "Maid services have been doing this in small ways for years. Our members, such as Chuck Terpstra, have had a hard time turning down a woman who needs her house cleaned when she is battling cancer and cannot afford a maid service. I decided to go ahead and form a foundation so that we could extend support across the entire country."

The Cleaning Pros, Inc. is one of the first 30 charter members of the Foundation. The monthly pledges from individual maid services help fund the Foundation's administrative expenses, while consumer donations are earmarked entirely for cleaning homes for women with cancer.

"I'm excited to be part of a nationwide system that I can promote locally. I know there are plenty of families faced with this often devastating challenge and we are just glad to do our part. I hope to promote this most worthwhile cause to more maid service owners in Florida," said Chuck Terpstra.

Cleaning for a Reason has profoundly impacted Chuck's employees as well. The Cleaning Pros, Inc. employees have told Chuck they are most excited to be a part of helping these women, and look forward to helping in many more ways very soon.

The Cleaning Pros, Inc. has provided expert home cleaning for 3 years serving over 600 homes each month in Northern Pinellas and Southwest Pasco counties.
